Speech Recognition Ready
Cost Effective Rechargeable Batteries
Real-Time Encryption and PIN Security
Durable Stainless Steel Construction

PUMA Management Software

Digital Evidence Management

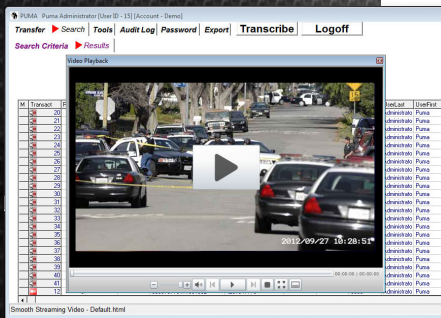

Today's challenge for Law Enforcement isn't capturing evidence, but how to control and manage it. The use of digital evidence in Law Enforcement has greatly expanded the amount of evidentiary data and has increased the need for agencies to find a better way to manage their fast-growing digital evidence collection.

Audio, Photos and Videos

The PUMA Management Software provides a powerful, secure, and easy-to-use digital evidence management system for the storage, retrieval and management of digital audio recordings, digital photos and digital video files.

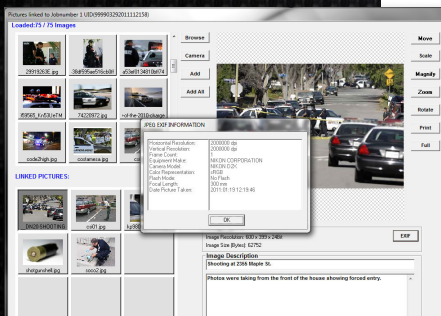

Simple to Use

Key to the success of PUMA is its ability to provide officers an easy platform to upload their digital files, add file information such as case number, subject name, or notes, and store the content securely. With various search options, files can be easily retrieved for playback or exported to CD/DVD.

Fits Every Agency's Size and Budget

The PUMA Management Software is scalable; offering add-on modules that address the specific needs of your department. PUMA Audio Manager, PUMA Photo Manager and PUMA Video Manager are offered as an integrated solution or as modular components.

The Right Solution for Law Enforcement

PUMA Management Software is the right solution for Law Enforcement agencies that want to securely and efficiently manage their digital evidence in an easy and intuitive fashion.
